Professional Summary

Computer Engineering graduate with strong skills in Full-Stack Development, Java, Python, JavaScript, and modern web technologies. Experienced in developing scalable web and mobile applications, REST APIs, database management, and cloud technologies. Strong problem-solving abilities, teamwork skills, and a passion for building impactful software solutions.

Education

B.E. in Computer Engineering 2022 – 2026
SAL Institute of Technology & Engineering Research, Ahmedabad
Gujarat Technological University (GTU) CGPA: 7.49

Experience

Full Stack Developer Intern Jan 2026 – Apr 2026
Sonoma Infotech Pvt. Ltd., Ahmedabad

- Worked on the client project **Photoflow – Face Recognition System**.
- Developed frontend and backend modules for a face recognition platform.
- Collaborated with the development team to build scalable and efficient solutions.

Microsoft Data & AI / Azure Infrastructure Intern Jul 2025
CloudThat (Remote)

- Gained hands-on experience with Microsoft Azure, AI, Data Analytics, Infrastructure Solutions, and Power BI.
- Learned cloud-based deployment, analytics, and enterprise data management concepts.

Projects

Photoflow – Face Recognition System
ReactJS, TypeScript, NodeJS, ExpressJS, OpenCV, MongoDB

- Developed a web-based face recognition platform for identifying individuals from uploaded images using computer vision techniques.
- Built a responsive frontend using ReactJS, TypeScript, HTML, and CSS with API integration through Axios/Fetch.
- Developed REST APIs using NodeJS and ExpressJS for image processing and user management.
- Implemented face detection and facial encoding using OpenCV and Face Recognition libraries.
- Utilized MongoDB and Mongoose for storing user information, images, and facial encodings.
- Enabled quick retrieval of matching images from large event and wedding photo collections.

Online Auction System
HTML, CSS, JavaScript, Firebase

- Built a real-time auction platform with seller listings, buyer bidding, authentication, and admin controls.
- Utilized Firebase for backend services and real-time database management.

Travel Planner (Course Project)
HTML, CSS, JavaScript, PHP, MySQL

- Developed a travel booking platform with destination management, booking features, and admin dashboard.
- Implemented database-driven functionalities using PHP and MySQL.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL
Frontend: ReactJS, React Native, HTML, CSS, Vite
Backend: NodeJS, ExpressJS, REST APIs
Databases: MySQL, MongoDB, SQLite
Tools & Platforms: Git, GitHub, Microsoft Azure, Power BI, VS Code
Libraries: OpenCV, Pandas, NumPy
Soft Skills: Problem Solving, Communication, Team Collaboration

Relevant Coursework

Data Structures • Object-Oriented Programming • Analysis and Design of Algorithms • Operating Systems • Database Management Systems • Java Programming

Certifications & Achievements

- Internship Completion Certificate – Full Stack Developer, Sonoma Infotech Pvt. Ltd.
- Microsoft Data & AI / Azure Infrastructure Internship – CloudThat
- Web Development using Python Django Framework
- Ethical Hacking and Cyber Security
- Volunteer – 30th National Children's Science Congress (NCSC 2022)
- Participant – 19th ISTE Gujarat State Annual Students Convention, Prarambh TechFest 2025
